DESIGN **LINA** JOHANSSON

Whether it’s a blanket or rug, cushion or bed-spread, every item you see is designed to be well used and well loved!

Carefully chosen materials of high quality blend beauty and practicality. All products are designed and produced with timelessness in mind, intended to exist outside of trends.

The design channels a modern Scandinavian aesthetic with a touch of playfulness, and aims to contribute to beautiful, unique and cosy homes.

Hi, I’m Lina!

I’ve been running my own business since 2012 - I love to work with textile design on my own terms, being able to realise my dreams and ideas.

On any given day you’ll probably find me in my studio in Nykvarn outside Stockholm, where I’ll be focused on getting my products out into the world or dreaming up new patterns and palettes.

Textiles can be the difference between a house and a home. Blankets, cushions and rugs can add so much value, making a room look warm, cosy and welcoming, while adding a wonderful splash of colour and texture. Textiles even create a more pleasant soundscape!

“I want people to use and enjoy my textiles - they’re not just decoration, they’re practical and useful. A rug should be walked, crawled and danced upon, and a blanket should be snuggled with!”

-Lina
